

Visualization and Animation  
EE-049003 — Fall '09

Final project specification

Due: December 30th, 2009 - Hand in the description of your project (in pairs)

It is time to think about your project, in which you need to program part of your selected paper and some possible improvement. (It will be fine if your idea turns out not to improve anything.)

You should send me a one page description of your project, which should contain:

1. 1-2 paragraphs summarizing the paper
2. 1-2 paragraphs describing its drawbacks
3. 2-3 paragraphs describing the parts of the paper you intend to implement
4. 1-2 paragraphs describing what the parts of the paper you intend to improve and how
5. 1-2 paragraphs describing the tools you intend to use in your implementation
